GENERAL INFORMATION

The definition of "marine use fuel" is motor fuel (gasoline) delivered by a distributor to a marina or other retailer who sells that fuel to the ultimate consumer for use in a boat or ship operating on Missouri waterways. The term does not include special fuel.

To qualify as marine use fuel the distributor must deliver the fuel in a qualifying county. The following counties qualify for having any part of a lake containing one hundred or more miles of shoreline:

Barry	Camden	Clinton	Hickory	Morgan	Ralls	Stone
Benton	Cedar	Dade	Miller	Ozark	Reynolds	Taney
Butler	Clay	Henry	Monroe	Polk	St. Clair	Wayne

Every motor fuel distributor delivering motor vehicle fuel in qualifying counties for marine use must provide a copy of the invoice (including copy of authenticated delivery ticket) for each delivery to the Missouri Department of Revenue. The distributor must submit the invoices and delivery tickets with this report no later than the last day of the month following the month of delivery.

Each invoice must include the name and address of the purchaser, the county where fuel is delivered, the quantity of marine use fuel delivered and the dollar amount of fuel tax collected. Group together all invoices (including copies of authenticated delivery tickets) by county. Attach calculator tapes of the total quantity and the total dollar amounts to each county's group of invoices.

We mail a report each month to distributors that report sales for the previous month. You may obtain additional forms by contacting the Division of Taxation and Collection, P.O. Box 300, Jefferson City, Missouri 65105-0300 or by calling (573) 751-7671.
